A year ago in October, during the panic, the Great Eastern Clay Company, located on South River between South Amboy and New Brunswick, of which Robert Lyle is the manager, cut its minimum wage to 90 cents for a working day of ten hours. Thereafter the highest pay for unskilled

operatives was \$1.15 a day. The company promised, so the few strikers who speak English said to-day, that when prosperity came, after the election, the wage rate would be raised to 15 cents an hour. The operatives heard during campaign times that if Taft was elected prosperity would come at once. After the election they waited for the prosperity. When the raise was not forthcoming the men working for the Great Eastern Clay Company struck .

That was on Friday last. The crusade which these strikers started then and which they carried from pottery to pottery, irrespective of the fact that some of the works were paying \$1.35 and \$1.50,

'An elderly gentleman with a leather handbag and a daughter precipitated half a panic on the subway yesterday afternoon-that is the bag did. They travelled together as far as the 116th street station all the way from Van Cortlandt Park, but there the gentleman and his daughter deserted the satchel. ELDORADO, Kan., Nov. 25.-Robbers entered the Towarda State Bank at Towanda, Kan., ten miles west of here, about 2 o'clock this morning, blew open the safe with nitroglycerine, got \$3,000 and escaped. J. E. Clark and his wife, who live two blocks from the bank and were up all night with a sick child, heard the explosion, heard the men go west on two handcars on the Missouri Pacific and gave the alarm.

Sheriff Joliffe of this place and Cashier Frank Robison, who was in Eldorado at the time, were notified, as was the chief of police in Wichita, who immediately summoned a posse and left for Towanda on a special Missouri Pacific locomotive

with the headlight darkened. A few miles out from Wichita the engine was stopped, the officers alighted and going ahead watched for the handcar. Nothing was seen or heard of it, and the engine and officers proceeded to Towarda without seeing anything of the robbers.

When they returned to Wichita they found the handcar in the Missouri Pacific yards. It is supposed the robbers heard the engine, lifted their car off the tracks, hid until the engine went by and then proceeded to Wichita on the handcar.

FRANK HOLLINS CALLS POLICE

SAYS HIS SON CAME WITH A GUN DEMANDING \$500.

Young Man Arrested at 11 Wall Street Taken to the Night Court, Where He Gives Bonds to Keep the Peace and Says He Will Sue His Father for Libel.

Frank C. Hollins of 11 Wall street appeared in the night court last night with his wife and daughter as complainant against his son, De Ruyter M. Hollins, whom the father accused of threatening his life with a revolver vesterday afternoon. He asked Magistrate Finn to commit the son to an institution.

De Ruyter Hollins was arrested by Policeman O'Brien of the John street station, who went to Frank C. Hollins's office vesterday afternoon in response to on a charge of disorderly conduct.

"My son came to my office this afternoon and after using abusing and threatexcept the din-dinning of the train. But ening language demanded \$500," said everybody began to jump up on the seats Mr. Hollins. "When I refused to give and hold tight to skirts or trouser legs him anything he pointed a gun at my head and threatened my life. Pierson, Jr., & Co., but he made a failure in business, as he has of everything. I picked him up out of the professor at Columbia who would own gutter and sent him to an institute to try to cure him of the drink habit."

Mr. Hollins said that a year ago his son came to his house at 26 East Fifty-fourth street one night and letting himself in with a night key roamed through the house until nearly morning and then went into his mother's room, carrying a loaded rifle, and told Mrs. Hollins that he intended to kill his father. At that time he also threatened his mother's life, the father

When De Ruyter Hollins got a chance to talk he declared that as he was charged with disorderly conduct the Magistrate had no power to send him to an institution to have his sanity inquired into. Magistrate Finn agreed with him and said he would hold him in \$500 bail to keep the peace for three months. The son had a bondsman in court. He declared when he left the court that he would prosecute his father for criminal libel. He is 34 of the Union and Riding clubs.

Boston Mau Explains Why He Gave \$25,-000 to Taft Campaign Fund.

BOSTON, Nov. 25 .- A statement issued to-day defines the attitude of Larz Anderson of Brookline in view of the suggestion that in view of his contribution of \$25,000 to the national Republican campaign fund he would get a diplomatic post under the Taft administration. It says:

"Mr. Anderson and Mr. Taft's families have been intimate for generations and are connected by marriage and Mr. Anderson has been a great admirer of Mr. Taft all his life. He has done all that he was able to support Mr. Taft's nomination and election by personal effort and contribution to the campaign, fund for the sake of the country and the Republican party, as he believes that there has never been a candidate so grandly fitted for the great office of Presidents

"Mr. Anderson never has been and is not seeking office; his family and personal ties and his interests of every kind are such that it would be at a sacrifice for him to undertake public office again (his appointment to office originally came unsought) and he could only look forward to such a thing if it came as a continuation a career to which he had given some the best years of his life."

Mr. Anderson was associated with Robert T. Lincoln in the United States Embassy at London, and later was First Secretary of the Legation in Italy under Secretary of the Lega Wayne MacVeagh.

STRIKE AT THE NEW LIBRARY. 150 Bronze Workers Object to Tolling Eight Hours on Saturday.

The 150 bronze workers employed inside the New York Public Library have struck owing to a difference with the Henry-Bonnard company of Mount Vernon as to hours of work. It is estimated that two years more will be required to complete the inside work, even without any strikes. The strikers had been working eight

hours with a five hour working day on Saturday. The strike was declared because the employers decided to have an eight hour day six days in the week. It was stated on behalf of the firm that t had voluntarily shortened the workday to its employees some time ago. The bronze workers get from \$17.50 to \$23 a week, and the strikers say that an eight for Dorando, Charles Barsotti, who hun hour Saturday virtually means a reduction in wages, as formerly any labor over five hours on Saturday was overtime, paid for at extra rates on an overtime basis.

MARATHON RIVALS IN STIRE

RING RACE IN THE GARDEN. Bevival of Classic Contest Attracts an Enthusiastic Crowd-Richard Croker

Starts the Men on Their Long Journey

-Italian the Pacemaker Through John J. Hayes and Dorando Pie the Italian, fought their Marathon battle over again in Madison Square Gard last night. The Italian forced the pa throughout and turned the tables on his American rival by winning after one of the most desperate races ever seen

Dorando ran away from Hayes in the last lap and won by one-third of a.l or about sixty yards. The time 2 hours 44 minutes 20 2-5 seconds.

Right up to the last lap the men ra ike a team, Dorando leading by a sm margin at the end of each mile. These were two instances of what looked like foul work, each man offending, otherwise the race was clean and fairly contested. Dorando was in better physical condition as the race resulted, for Hayes was on the verge of a collapse at the end of the long journey.

Hayes's sweetheart, Miss Florence Mason, fainted away when she saw the young American trailing home defeated. The Marathon race in England was run in 2:56:18 2-5, Hayes's official time. Italian citizens raised the roof after Dorando had come home in triumph.

Italy owned the big amphitheatre an hour before the race started. The sunny sons came in droves, prepared to loss their senses over a victory of their distinguished countryman. They paid all sorts of prices to gain vantage points until from the narrow rail along the inside edge of the dirt track clear up to the ceiling they swarmed in a cheering. whistling crowd, bent upon having a celsbration.

There were barbers, bootblacks, fruit venders, pedlers, business men, storereepers and all kinds of representatives of Dorando's native heath who were on hand for a royal time, for all of these loyal Italians could not believe for a moment that Dorando would be defeated. His great, game race in England had not been forgotten, and though he lost the Marathon because of disqualification bis countrymen were sure that he would

vindicate himself this time. "Dorando is the champion," they kept "Dorando is the champeon, saying. "Wait until he heats Hayes saying. "Wait until he heats Hayes here to-night and then you'll know the to be true." or words to that effect, spoker either in their native tongue or in broker Brelish. It was a long wait for the valiant supporters of the Italian runner. but that made ho difference. An Italian band soon struck up national airs and there was plenty of wild cheering. The Italian flag was waved all over the Garden and

there was a world of fun. But there were many others in the arena besides Italians. Hayes had big following here and the fact that he was the real winner of the now far Marathon race has won him world wi fame. Consequently Americans, Irisi men and men of other nationalities poure into the Garden to pay homage to plucky little Irish-American A. C. bo who bore the Stars and Stripes to victor

in such memorable style. That the race was strictly on the lev all of the athletic experts insisted, for both men had everything to lose. Ms agers Powers and Pollok were bou to reward the crack runners subst tially too. Hayes received a guaran of \$3,000 win or lose, or the privilege taking 30 per cent. of the receipts. The he was recently an amateur, his idea about cinching this coin was that of a professional. His manager wanted b have the ticket boxes padlocked and al of the ticket sellers and takers watched

"We want our bit." he declared; "a

we are going to get it." Dorando had an agreement with the management by which if he won he w to receive \$2,000 and \$1,000 if he lo He also received all his expenses here and back, together with those of his broth who is his manager. The officials of t race were: Referee, Tim Hurst; jus up a loving cup for the winner; for Haye W. H. Robertson; chief scorer, Al C land; scorers, for Dorando, T. Anis for Hayes, James F. Donnelly; tim A. G. Harvey, P. Clust, William Fahlab

and E. L. Mahnken. The track was ten laps to a mile, th men running 262 laps and 3 yards in on to cover the Marathon distance of 28 m and 385 yards. The track was of dir mixed with sawdust and was sligh banked at both ends of the Garden America and because of the fact the was the first race of its kind ever he Dorando had never run indoors be Hayes was supposed to have an adv tage in this respect.

Just before 9 o'clock an American ban struck up "Hail to the Chief" and the crowd, which then numbered 8,000 per sons, more coming every moment, began to cheer wildly. The excitement was in-tensified as Richard Croker made his appearance and walked along the Twen seventh street side to a box. With him were Senator P. H. McCarren and others. The crowd recognized the former Tam many leader instantly and set up a loud

"Hello, Dick!" Three cheers for Croker! elled a hundred men, waving their hats and canes. There was a hearty resp and Mr. Croker, smiling broadly, raised his hat and bowed in acknowledgment His party was quickly made a target of by the picture men, after which a l crowd stood in front of the box and stare

in open mouthed wonder. There was a duel by the bands while the crowd continued to file in The "infield," or that part of the floor space inside of the track rails, was jammed. The galleries and arena seats, also the boxes, were practically filled by this time, yet there was a steady stream past the gates It cost a dollar to see the race from the gallery. Then, \$3, \$5 and \$10, the last figure being the price of a box seat.

so great was the desire to see the race
